Settling fast vs. settling fair

Often, pressure is on attorneys and their plaintiff clients to settle quickly due to plaintiff's financial constraints. Insurance companies and other defendants may use delay tactics to force plaintiffs with limited financial resources into accepting an unfair low settlement offer.

LTF Legal Finance helps to level the field.

We provide plaintiffs with the financial assistance to wait for the fair settlement they deserve. We provide you with the time to achieve it. Our funding can nullify delay tactics, help your clients meet current living expenses, and reduce the pressure on you and your clients to settle early.

A commitment to serving you and your clients

At LTF Legal Finance, we believe that a client's present financial circumstances should not force an unjust settlement. Therefore, we are committed to providing interim financial resources so that you can pursue fairness. We value your trust, and assure that we will treat you, your staff and your clients with professionalism, respect and integrity. We will make decisions regarding funding quickly and efficiently, while minimizing your time. In all that we do, we aim to level the field so that fairness will prevail.
